

## Collection

The following air- and spacecraft constitute the major artifacts of The Museum of Flight collection, as well as items on long-term loan:

### On display at the Museum's main location in Seattle:

- |  |  |
|--|--|
| 1. Aerocar III   | 35. Fokker Dr.I* (replica)                   |
| 2. Aeronca C-2*  | 36. Fokker E.III* (replica)                  |
| 3. Aeronca L-3B Grasshopper*                             | 37. Granville Brothers Gee Bee Z (replica)   |
| 4. Aerospatiale/BAC Concorde                             | 38. Goodyear FG-1D Corsair                   |
| 5. Aerosport Scamp**                                     | 39. Goodyear F2G-1 Corsair                   |
| 6. Albatros D.Va (replica)                               | 40. Grumman A-6E Intruder                    |
| 7. Aviatik D.I   | 41. Grumman F4F-3 Wildcat                    |
| 8. Beech C-45H Expeditor*                                | 42. Grumman F9F-8 Cougar                     |
| 9. Boeing 80A-1  | 43. Grumman F-14A Tomcat                     |
| 10. Boeing 100/P-12                                      | 44. Hiller YH-32 Hornet*                     |
| 11. Boeing 727-223                                       | 45. Insitu Aerosonde*                        |
| 12. Boeing 737-130                                       | 46. Lamson L-106 Alcor*                      |
| 13. Boeing 747-121                                       | 47. Lear Fan 2100*                           |
| 14. Boeing AGM-86B ALCM (mock-up)                        | 48. Leonardo da Vinci Ornithopter* (replica) |
| 15. Boeing B&W* (replica)                                | 49. Lilienthal 1893 Glider (replica)*        |
| 16. Boeing Lunar Roving Vehicle (mock-up)                | 50. Lockheed D-21B                           |
| 17. Boeing VC-137B                                       | 51. Lockheed F-104C Starfighter*             |
| 18. Boeing WB-47E Stratojet                              | 52. Lockheed M-21                            |
| 19. Bowers Fly Baby*                                     | 53. Lockheed P-38L Lightning*                |
| 20. British Aerospace/McDonnell Douglas AV-8C Harrier II | 54. Lockheed Martin/Boeing RQ-3A DarkStar*   |
| 21. Canadair CL-13B Sabre                                | 55. McAllister Yakima Clipper*               |
| 22. Caproni Ca 20  | 56. MacCready Gossamer Albatross II*         |
| 23. Cessna CG-2*   | 57. McDonnell F-4C Phantom II                |
| 24. Chanute-Herring 1896 Glider* (replica)               | 58. McDonnell Mercury Capsule* (mock-up)     |
| 25. Curtiss JN-4D Jenny                                  | 59. Messerschmitt Bf 109E-3*                 |
| 26. Curtiss P-40N Warhawk                                | 60. Mikoyan-Gurevich MiG-15                  |
| 27. Curtiss Robin C-1                                    | 61. Mikoyan-Gurevich MiG-17                  |
| 28. Douglas A-4F Skyhawk II                              | 62. Mikoyan-Gurevich MiG-21PFM               |
| 29. Douglas DC-3*  | 63. Nakajima Ki-43-IIb Hayabusa              |
| 30. Fairchild F24W*                                      | 64. Nieuport Type 24 (replica)               |
| 31. Fiat G.91 Pan  | 65. Nieuport Type 27* (replica)              |
| 32. Focke-Wulf Fw 190D-13                                | 66. Nieuport Type 28 (replica)               |
| 33. Fokker D.VII* (replica)                              |  |
| 34. Fokker D.VIII* (replica)                             |  |

151. Task Silhouette

152. W.A.R. P-47 Thunderbolt\*

In addition to the major artifacts listed above, the Museum holds the largest aviation and space library and archives on the West Coast. Important collections within these holdings include:

- **The American Fighter Aces Collection:** records and personal memorabilia of the aces.
- **The Donald Douglas Collection:** designs, photographs and files from the Douglas Aircraft Co.
- **The Flying Tigers Collection:** records and personal memorabilia of the American Volunteer Group of World War II.
- **The Gertler Collection:** the earliest corporate papers of the Wright, Curtiss and Martin companies.
- **The Hatfield Collection:** the life's work of aviation historian and collector David Hatfield, documenting the full history of aviation in California.
- **The Elrey B. Jeppesen Collection:** personal and professional memorabilia of the famous creator of Jeppesen aerial navigation charts.
- **The Lear Collection:** drawings, photos, and documents on the history of Bill Lear and the Lear Aircraft Corp.
- **The John McDonnell Collection:** biographical and early corporate information on James McDonnell and the McDonnell Aircraft Co. before it became McDonnell Douglas.
- **The Parker Space Collection:** more than 200 cu. ft. of documents, photos and drawings covering the Apollo space program.
