Required Materials:

• A computer

Suggested Materials:

For Wednesday’s Live Activity Session:

• Materials for making a small rectangle-shaped spacesuit sample—plastic bag, paper, cardstock, cardboard, cloth fabric, canvas bag, reusable grocery bag—recycled materials you have, use your imagination

• Rubber band/paperclip/binder clip—to hold layers of spacesuit together

• Marbles, balls, rocks—will act as meteoroids. NO SHARP OBJECTS.

• Impact Material—sugar, sand (preferred), dirt or flour
  » Impact Material container—box/bin/bucket
  » Note: You need enough Impact Material to create a ½ in. layer in your container

• Scissors

• Thermometer (for optional add-on activity)
